DESIGN PORTFOLIO

https://sandeepvirmani.com/

CORE STRENGTHS

UX Strategy & Leadership
Security UX · XDR / NDR / IAM
Complex Workflow & IA Design
Research & Validation (SUS/NPS)
Design Systems
Stakeholder Alignment

AI DESIGN TOOLCHAIN

Figma AI · Figma Make
Claude AI + MCP Plugins
End-to-End AI Prototyping
Tree of Thoughts / CoT
AI UX Synthesis · ChatGPT

TOOLS

Figma · FigJam · Miro
Jira · Confluence

DOMAINS

Cybersecurity: XDR · NDR · IAM
Cloud: Multi-Cloud Platforms
Enterprise SaaS · Endpoint

EDUCATION

BA English — Delhi University
Diploma — IIFT Delhi

CERTIFICATIONS

Certified Usability Analyst
Design Thinking · UVA
Google Generative AI
IBM & MS Accessibility

AWARD

National Geographic Photography
First Prize — "Windows in Asia"

PROFESSIONAL SUMMARY

Principal UX/Product Designer with 15+ years leading enterprise product design across cybersecurity, AI platforms, and cloud SaaS—translating complex workflows into adoption and revenue outcomes. Delivered measurable growth by removing onboarding and admin friction (57–60% reduction) and accelerating feature adoption (150% increase), validated through enterprise-scale research (SUS 83, NPS +63). Trusted partner to Product, Engineering, and Data Science, driving strategy-to-execution from discovery and IA through prototyping and usability validation, while scaling AI-assisted design practices to improve team throughput and speed time-to-market.

EXPERIENCE

Principal UX Designer · OpenText India

Feb 2024 – Mar 2026

- Drove ILM Policy Builder from concept to launch — replaced XML authoring with a visual canvas to accelerate policy creation and improve release confidence; validated at OpenText World 2025 (SUS 83, NPS +63, 0 critical issues)
- Established the UX foundation for OpenText XDR — defined personas, journey-based IA (Detection/Discovery/Response), and competitive positioning to align roadmap and reduce friction for analyst workflows (benchmarked vs. CrowdStrike & Microsoft Defender)
- Shipped NDR Rules & Anomalies dashboards — improved visibility of node-level detections and streamlined rule creation to speed triage and increase usability within existing platform constraints
- Scaled AI-assisted design across 6 teams — led Tree of Thoughts/CoT workshops and standardized Figma AI + Claude AI (MCP) workflows to increase prototyping throughput and shorten concept-to-component delivery

Principal UX Designer · Palo Alto Networks India

Jul 2021 – Jan 2024

- Led the redesign of Prisma Cloud multi-cloud onboarding (AWS/Azure/GCP) — unified entry into a 3-step guided flow to remove adoption blockers and accelerate time-to-value (57% fewer screens, 60% fewer clicks; validated with Informatica, Nvidia, Unacademy)
- Converted UX improvements into measurable business growth — contributed to 150% credit consumption growth, 120% agentless feature adoption, and 8× improvement in customer sentiment by streamlining critical security workflows and reducing onboarding drop-off

Principal UX Designer · Oracle India

Aug 2019 – Jun 2021

- Oracle Unity Data Platform (B2B CDP): Led end-to-end UX for customer data unification — simplified profile unification and segmentation flows and delivered analytics dashboards to improve marketer activation and drive adoption across enterprise data teams
- Oracle Live Experience (iOS/Android/Web SaaS): Owned UX for real-time omnichannel engagement (co-browse, video, messaging) — streamlined agent and customer journeys to increase engagement throughput; aligned product UI to Oracle Redwood Design System to accelerate delivery and consistency at BU scale

Senior UX Designer · IBM India

May 2018 – Jun 2019

- Led Cost & Asset Management UX for IBM Cloud Private — transformed CLI-heavy, multi-step setup into a guided UI to reduce configuration friction and accelerate platform adoption; delivered to IBM Carbon Design System standards
- Facilitated Design Thinking workshops and design sprints — aligned UX, Product, and Engineering on roadmap decisions and de-risked complex cloud-infrastructure workflows through rapid validation

UX Design Specialist · Novell / Micro Focus

May 2010 – May 2018

- Led next-gen redesign for ZENworks Endpoint Management and ZENworks Service Desk — owned discovery-to-delivery to modernize admin workflows and improve usability for large enterprise deployments
- Led on-site contextual inquiries at US enterprise accounts (Trinity Health, CalTrans, City of Fresno; 67K+ devices) — translated field insights into UX strategy, prioritized roadmaps, and production-ready technical product illustrations

Enterprise eLearning · Creative Direction & Design

GE Capital | Progress Software | Deloitte

Jan 2001 – Apr 2010

- GE Capital (2000–06): Art-directed eLearning WBT and CBT learning modules for GE Medical Systems & GE Aircraft — promoted to Assistant Manager; recognized as Zero Defect Champion for quality and delivery excellence
- Progress Software (2006–09): Delivered visual design and CBT modules for OpenEdge/DataDirect product lines; art-directed enterprise intranet communications to improve clarity and engagement
